# HAMNER AVENUE
## BRIDGE & WIDENING PROJECT

# Construction Update: Week of May 24, 2021

**Daytime work continues, watch for heavy construction equipment on Hamner Avenue.**

## Project update

### Hamner Avenue Bridge

- Equipment mobilization continues in the Santa Ana River riverbed.
- Work continues on the bridge support system on both the east and west sides of the project area. A concrete placement is planned for the bridge support system footing and embankment retaining wall in the next weeks, the first concrete placement of the project.

### Alhambra to Detroit streets

Work continues on removing the existing retaining wall, pipes and drains, along with shoring installation for the new wall on the west/southbound side of the street.

### Hamner Avenue bridge to Citrus Avenue

Large construction machinery continues to be mobilized into the Santa Ana River riverbed. Please watch for vehicles entering and exiting the construction zone.

### Citrus Street to Schleisman Road

Crews continue a dirt moving operation to place large amounts of dirt on top of the embankment on the east side of Hamner Avenue to stabilize the ground under the bridge support system.

A close up view of the bridge support system under construction at the southwest end of the the Hamner Avenue bridge.

An aerial view of the project area showing the expanse of the new bridge that will be constructed along with the bridge support system on the south end.
