BUILDING RESILIENT COMMUNITIES

The Community Emergency Response Team (CERT) program educates volunteers about disaster preparedness for the hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. CERT offers a consistent, nationwide approach to volunteer training and organization that professional responders can rely on during disaster situations, which allows them to focus on more complex tasks. Through CERT, the capabilities to prepare for, respond to and recover from disasters is built and enhanced.

CERT training is a commitment of **20 hours of training**. There is no cost for the training. Only those who successfully complete the practical exercise with hands-on instruction in fire suppression, search and rescue, cribbing, and medical training will receive a certificate of completion.

Cribbing

Fire Suppression Safety

Free training sessions are held every Spring and Fall.

THANK YOU TO ALL OUR CERT VOLUNTEERS!
